

Gang Starr Lyrics

"Gusto"

Keith E.E. emcee on a spree I'm goin for this
cause draws applause, yes I adore this
I'll reteach with speech, I can accomplish
I've got to flaunt this, I'm not a pessimist
Yo I'm an optimist, that's why I'm droppin this
I'm good I got style, cause I've stood for a while
In the shadows of the others gettin mellow with the brothers
called the Gang, and yes I can hang
Progressin with my lesson while I do my thang

I've got gusto
"My man gots that gusto" "Word"
[x2]

You say your rhymes flow, I say I'm spontaneous
Rockin the place, I'm not mainly just
sayin some words that are weak or incoherent
And it's apparent, that you fear us, the Gang
but I'm still a peace seeker
I'm in your face, don't have to sneak ya
Dope rhymes speaking with wisdom of a preacher
and I'm here, cause you've been victimized
I'm sincere, I see through gifted eyes
So yo, we're gonna see what the race is
That's where you groups, will have to face us
And you can bet we'll be in tip-top shape
Nice so precise with a hip-hop update
Wait, I got a shoutout for the ladies
Come check me baby, don't underrate me
Cause I'm a man with the plan for all
The Guru, to groove you, get out the wall

I've got gusto
"My man gots that gusto" "Word"
[x2]

I've got gusto, so I'm kickin it well
I got gusto, with much clientele
So I pump it, to a higher decibel
Have a seat, listen cause the rest it goes smooth
and improve and bust a move
I am the man with the true blue potential
I am essential, I drive you mental and back
Attack mack and rap
And as you calm I will romp
Like a giant I stomp

I've got gusto
"My man gots that gusto" "Word"
[x2]

Really? Right, you wanna be a emcee?
Then go against me -- boy don't even tempt me
Cause I go house on the freestyle tip
Math you and blast you and then just shift
into hype gear, no fear, I persevere
Year after year, rehearsin verse so clear
Cause I've been into rhymin man for like eons
And every stage, word I wanna be on
So I can show you how it's gotta be done
I never run or shun, I've just begun

I've got gusto
"My man gots that gusto" "Word"
[x2]

..

"My man gots that gusto" "Word"
[x2]

Ahhh yeah... gusto...
